I. Product Description

ADOS Stuff Off - gets stuff off!

A powerful cleaner/remover that is designed to soften or dissolve most adhesives and paints as well as uncured laminating resins and uncured sealants.

The gel formula clings to the surface making it also ideal for vertical applications.

It also removes paint spills, graffiti, inks and grease.

II. Features & Benefits

- Ideal for use on: Metal, Wood, Fabric, Carpet, Stone, Brick, Steel
- Effectively removes: Adhesives, Paints, Graffiti, Inks, Resins, Grease, Uncured sealants
- Gel formula can be sprayed onto tools and surfaces with minimal overspray

III. Application and Directions

Shake well before use. Apply ADOS Stuff Off to the affected area. Contaminant to be removed will determine the length of contact time. Fresh paint 15-30 seconds. Cured adhesive up to 15 minutes.

1. Read entire label before use.
2. Spray directly onto the contaminant to be removed, ensuring to wipe off over spray to avoid potential damage to painted surface.
3. Leave for the minimum time required to affect the removal.
4. Methods of removal may include wiping, scraping, water blasting or picking off.
5. Repeat entire process if necessary.

IV. Typical Properties and Characteristics

Physical Properties:

Odour	Mild Citrus
Appearance	Opaque gel
Flammability	Flammable aerosol
Propellant	Hydrocarbon

V. Package Description

Part Number Size

8270 500ml Aerosol

VI. Special Precautions

Aerosol Cans:

Do not puncture, incinerate or store above 50°C. Exposure to high temperatures may cause can to burst. Do not place in direct sunlight or near any heat source. Aerosol cans will conduct electricity. Keep away from all live electrical sources including battery terminals, solenoids, electrical panels and other electronic components. Failure to observe this warning may result in serious injury from flash fire and/or electrical shock.

First Aid:

Swallowed – Avoid giving milk or oils or alcohol. Not considered a normal route of entry.

Skin – Flush skin and hair with running water (and soap if available). Remove any adhering solids with industrial skin cleansing cream. Do not use solvents. Seek medical attention in the event of irritation.

Eyes – Immediately hold the eyelids apart and flush the eye continuously for at least 15 minutes with fresh running water. Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving eyelids by occasionally lifting the upper and lower lids. Transport to hospital or doctor without delay.

Inhaled – Remove to fresh air. Lay patient down. Keep warm and rested.

Refer to Material Safety Data Sheet for more details.
