

ARDEX PU 30

POLYURETHANE PRIMER AND GREEN SLAB SEALER

ARDEX PU 30 is a one-component polyurethane primer and green slab sealer for use on internal and external porous and non-porous substrates. ARDEX PU 30 penetrates the surface of the substrate blocking capillary moisture up to 95% RH, while strengthening and consolidating the surface up to 2mm in depth.

Use

Primer and/or vapour barrier for

- ARDEX polyurethane- and MS-based flooring adhesives
- ARDEX levelling and smoothing compounds when sand broadcast

Location

- Internal and external application

Substrates

Porous and non-porous substrates, including;

- Concrete (including green concrete)
- Timber
- Plaster
- Existing ceramic tiles
- Steel

Coverage

- Primer: 100-150g/m²
- Vapour barrier: 250-350g/m²

Drying Time

- Allow each layer of ARDEX PU 30 45 minutes to dry
- Allow a minimum of 2 hours for layers containing a sand broadcast

Packaging

11kg Container

Code

22390
