

# INTRODUCING KNEEL-IT

CODE: 91528

*Kneel-It is a brilliantly engineered support device designed to relieve strain and decrease injuries that come with prolonged kneeling. Kneel-It has interchangeable attachments that offer more comfort, mobility, and protection. Complete with roller mounts for increased mobility and protecting delicate floors.*

*Wheels roll on hard indoor/outdoor work surfaces or soft terrains. Built with special grip technology to help maintain stationary when idle, a padded ergonomic spring-loaded seat to provide intervals of rest, and durable padded knee rests to ensure comfort while completing taxing jobs on-site or working from home.*

## PREVENTS KNEE AND LOWER BACK INJURY

Kneel-It keeps you comfortable and mobile while you work, therefore, preventing knee and back pain from developing over time

## FLUIDITY IN MOTION

Kneel-It has the ability to traverse uneven surfaces without leaving any scuff marks, making it the most versatile knee pad option that makes you the most productive

## STRAPLESS KNEE PADS

With Kneel-It you can get up and down whenever you want without dealing with painful straps. The knee pads are also made with soft foam to provide added comfort

## TOOL FREE ASSEMBLY

You can assemble and disassemble Kneel-It without any tools. When you're done simply fold it up into its compact, stowed configuration and you can store it or take it with you to the next job

## LIGHT AND DURABLE

Weighing only 13.8lbs, Kneel-It is easy to take on the go. And even with this small and portable size, Kneel-It is approved to support a user weight of up to 250lbs
