

LUPO STRIPPER

PRODUCT DESCRIPTION:

Stripper for removing all textile and elastic floor coverings

PRODUCT BENEFITS/FEATURES:

- ▶ Removal of vinyl, linoleum, rubber and textile floor coverings
- ▶ Travel drive and beater mechanism are powered by the same motor
- ▶ Blade angle adjustment
- ▶ PullBack system

PULL-BACK-SYSTEM

The pull-back system was developed to make it easy to pull the stripper backwards. When you reach a wall or other obstacle while working, you can lift the drive wheels by simply pulling the handle. The machine stops even though the wheels can continue to turn. If you pull harder on the handle, you can pull the machine back until the next sheet is to be detached. When the handle is moved forward again, the drive wheels touch down on the floor again and the machine moves forward again. When working, the handle must be pushed slightly forward so that the small transport castors are raised.

TECHNICAL SPECIFICATIONS:

Voltage	230 V
Working width	250 mm
Speed	10m/min
Weight	90 kg
Power	1500 W
Hand/arm vibration	7,67 m/s ²
